Income from Self-Employment - Self-employed persons may use income tax records for the preceding calendar year as a base to project the current year's net income. Report income derived from the business venture, less operating costs incurred in the generation of that income. Deductions for personal expenses such as interest on home payments, medical expenses, and other similar non-business deductions are not allowed in reducing gross business income.

Additional income from other kinds of employment must be treated as separate and apart from the income generated from your business venture. For example, if you operated a business at a net loss but held additional employment for which a salary was received, the income for purposes of this application would be the income from the salary only. The loss from the business cannot be deducted from a positive income earned in other employment. For purposes of this application, it is not possible to report a negative income from any business venture. The least income possible is zero (no income).

The necessary and appropriate information for arriving at allowable income may be taken from your most recent U.S. Individual Tax Return – Form 1040.

Part 4 SIGNATURE AND CONTACT INFORMATION:

- Sign and date the application. The form must be signed by the parent or guardian.
